## FARE REVISION

Would you please note that from Tuesday 4<sup>th</sup> May 2010 we will be implementing a fare increase on all our bus services.

For 18 months we have absorbed the cost of fuel increases and other utility costs. However in the light of these greatly increased costs it has now become necessary for us to revise our fare structures.

Please note the decision to increase fares has not been taken without careful consideration. Full details can be found on our website or by ringing the number below.

Could you please help our drivers by stating your destination and having the correct change wherever possible.

Thank you for your understanding and for travelling with  
**JOHNSONS.** Peter Johnson, Operations Director.
